Central A/C or Heat Pump

- *For the months of June, July & August
- *Electricity to water heater must remain on at all times during year to be eligible for program

Incentive amount: \$10 credit per month (total \$30)

This program is designed to help save energy by reducing high energy peaks. During UDWI's peak demand for electricity, an installed switch turns off your water heater for 2 to 3 hours and/or HVAC unit for 15 minutes of every ½ hour for a 4 hour period. The peak demand periods occur a few days each month.
